PRODUCT DESCRIPTION

A very exciting find. We have a quantity of these original classic street signs now decommissioned from the streets of New York City. Our batch of signs sat in a storeroom and never made it onto the streets - they became surplus in 1999 when the decision was made to replace these NYC icons with an LED graphic version more suited to a culturally diverse populace. Made of cast-aluminium and vandal proof tempered glass, All are in the original NYC yellow. Supplied fitted with completely new circuitry designed to flash at timed intervals, and with new internal E27 bulbholders and braided flex as required. Can be wall mounted or suspended.
