PRODUCT DESCRIPTION

The classic traditional filament globe-shaped bulb pendant light re-imagined in [sustainable](#) LED.

Comes with a dimmable LED bulb, bakelite bulbholder, braided flex and a cord-grip ceiling plate.

Available with a choice of flex colours, please contact us for longer lengths.

The bulb is impressively close to the original filament version, dimming to a warm glow. It has the advantage of having a far longer lifespan than the traditional carbon filament bulb with very low running costs.

- Hardwired in 1.5m flex
- Fully dimmable - ([VARILIGHT V-Pro LED Dimmer](#))
- A++ Rated
- 6W - 40W Equivalent
